

Rudy Van Reeth

Pitbull Dynasty of Rudy Van Reeth (Herenthout, BE) has done tremendously well both at home and abroad

It was thanks to Pitbull and his fantastic descendants that Rudy Van Reeth developed into an internationally renowned fancier. And numerous other lofts at home and abroad have been highly successful with the help of Pitbull's descendants. And this bloodline is also very well suited for crossbreeding, as you can tell from the many references.

The fantastic breeding bird 'Pitbull'

This phenomenal breeding bird has won six first prizes as a racing bird, but he proved even more talented as a breeder. Pitbull descendants have claimed a grand total of 75 first prizes, along with several ace pigeon titles at national and provincial level. The following titles were won by Pitbull descendants in recent years:

1. prov. ace pigeon sprint YBD KBDB 2014

3. Nat. ace pigeon sprint YBD KBDB 2014 ('Tornado' – Yves De Wit)

The Pitbull bloodline allows for easy crossbreeding with the lines of two other renowned players from around the area: Dirk Van Den Bulck and Stefaan Lambrecht's. And a crossbreeding with the golden bloodline of the record-breaking **Bolt** (Leo Heremans) has produced some fabulous descendants as well.

For instance, **Piddock** was a 6th National Ace Pigeon sprint KBDB in 2018, while **Miracle** was a 7th National Ace Pigeon sprint KBDB 2008 for Dirk Van Den Bulck. Both these pigeons are related to Rudy van Reeth's prestigious Pitbull dynasty for 50%.
